Chungara Calculo Ii 11.pdf Chungara
 Calculo Ii 10.pdf [23] Go to
 hypergeometric.wolfram.com and see if
 it's right. [24] Run the basic
 hypergeometric function identity A: I
 have got most of the things, I would like
 to share here, not all. The distributions
 are: Normal:

$$\frac{1}{\sqrt{2\pi}\sigma_0} \int_{-\infty}^{+\infty} e^{-\frac{(x-\mu)^2}{2\sigma_0^2}}$$

Gamma: $\frac{\Gamma(\alpha)\Gamma(\beta)}{\Gamma(\alpha+\beta)}$ Log-normal: $\frac{\exp\left(-\frac{(x-\mu)^2}{2\sigma^2}\right)}{\sigma\sqrt{2\pi}}$

The first one can be checked by Wolfram alpha, but I haven't got the other 2 distributions. Bridgeport's Mark Vives to Retire Mark Vives, who has been

serving as Bridgeport's public information officer since September 2007, will retire in March, Mayor Bill Finch announced today. Vives, who worked in the Department of Public Safety's patrol division as a lieutenant from 1995 until he retired in 2009, plans to spend more time with his family. "It will be nice to be able to slow down a bit, but I'm not retiring," Vives said. "I'm definitely stepping away from the professional scene and working on some different things. I haven't decided what exactly yet, but it's something I've been wanting to do for a long time." "He's been a tireless advocate for the city and our community," Finch said. "As public information officer, Mark was the point person for a number of issues at a time

when we needed someone with his credibility and expertise.” Vives served as a city council representative for three years before joining the Department of Public Safety in 1995. He retired from the department in 2009 and returned to the city. “He’s a 3e33713323
