
Student Companion Book English Free Download VERIFIED

An extremely good read for beginners and advanced English learners alike. For those who have passed the first level, and for those whose English has become above average at this level. Heaps of interesting examples, phrases, idioms and dialectisms, and much more. The book "Language in my life" is completely in Russian. As my son says, "she will die without a crossbar" (The translator is excellent, "knowledgeable", and it is felt. In general, a translator should always be "conscious": knowing the nuances of the language in every city, in every country is quite really). The book with the same title is in English. And more about books. This is a "Concise Dictionary of Geographical Terms and Vocabulary" from eminent translators, compiled by Gregory Slubitel. This book was given to me by Natalia when we were in Montenegro. There it was written like this: "A short word-formation nest of a country-specific dictionary of country-specific vocabulary, compiled on the basis of field research by native English speakers ... - that is, based on research by native speakers. We tried and could not read further - due to the fact that we did not understand all the words. Then they read one page, and found that everything needed to be known there too - because every word was clear anyway. This article about English in Montenegrin did not fit completely: And this is a dictionary of everyday words (in short) from an article from a translator. This is for the very beginners. Although I would gladly put a few examples from different articles in a book for my children. "English driving" - in my opinion, this is the main goal? The tongue tightens up. Read and prepare for an exam. I hinted that I would buy the Linguistic Dictionary of the English Language and the English-Russian Dictionary for Beginners. But for now, hemorrhoids are with them, but you don't want to buy the whole series cheaply. Although "Psychotraining for Rapid Speaking and Writing" is a good vocabulary exercise for beginners: So in two days I read ten thick books. Do you know that they don't speak English in the Czech Republic? Here, do not speak! They don't even know what a language is. And in Russian - please, you can say: "Enter the password"
