### Facebook Monitor For PC (Latest)

Facebook Monitor is a Windows application that enables you to monitor the activity and user sessions on Facebook from your computer. Facebook Monitor will scan your computer and monitor any changes that happen on Facebook. If there are any modifications to your Facebook account, Facebook Monitor will inform you. Additionally, you can also set up periodic scans in order to keep your Facebook account always up-to-date. Facebook Monitor can also generate a log for all your Facebook activities. These activities include logs for wall posts, comments, likes, etc. You can even set the log frequency and the log period. Facebook Monitor comes with a User Guide which is not only helpful, but also very easy to follow. You can download and install Facebook Monitor for free. After you install the program, you can run it from the desktop icon that is created. The first time you start the application, you will be asked to enter your Facebook username and password. Facebook Monitor features - User Guide - Scan and log all your Facebook activities - Set log frequency and period - Set wall post notification options - Set comment notification options - Set like notification options - Set like filtering options - Set privacy level - Set who may view your wall posts - Set who may comment your wall posts - Set who may view your comments - Set who may like your wall posts - Set who may like your comments - Set timezone - Set time period - Set US/UK time - Scan new login wall posts - Scan new login comments - Scan new login likes - Save wall post comments - Save wall post likes - Save wall post alerts - Save wall post notifications - Save comments comments - Save comments likes - Save comments notifications - Save likes likes - Save likes notifications - Save comments notifications - Save likes notifications - Save comments notifications - Scan new comments - Scan new likes - Scan new comments notifications - Scan new likes notifications - Scan new comments notifications - Scan new likes notifications - Scan new comment notifications - Scan new likes notifications - Setup a custom command - Customize the tooltips - Enable email notifications - Enable email alerts - Manage account preferences - Manage login and logout preferences - Manage notifications - Manage scheduled and custom logins - Manage scheduled and custom logouts - Manage users - Manage system notifications - Manage Wall Post System -

## System Requirements For Facebook Monitor:

Product Information: The largest gun in the world. It is a massive, nearly six-foot long, hand-held gun, hand-formed in 12-gauge steel, that fires explosive shells. Its overall shape was based on a captured alien craft, and it was repurposed into a prison assault weapon. It is designed to give Prisoner 3 a strategic advantage in an assault scenario, to deal with any number of problems that can arise in the field. The weapon is used in all of the Prisoner 3 missions, and requires a good level of both skill
