Q: I've discovered that my question has been answered in a paper, but I don't understand the answer I was wondering if there is a way to update my question or add something to it in order to make it more precise. The question here is that I've discovered a phenomenon that I can't seem to understand, and I found this paper which gave me a good explanation for it. I would like to know how does the phenomenon occur and whether there is a method to apply it to my research in a way that there are some flaws in it (although the answer is a big 'no'). I'm not asking for a complete code or derivation of the phenomenon, just if there is a way to update my question in order to make it more complete. I don't know how to get a new point from that paper (a derivation?) since all I've seen is how they
