What's New In Adobe Photoshop Cs6 Free Download Softonic For Pc?

You've heard the giddy jubilation as a proud new father watches his child emerge from the birth canal: first labor, then gas, then a baby who is (maybe) your own. But what if that "maybe" is, in fact, a yes, and that same baby is someone else's? That's been the reality for decades for some transgender Americans, who must worry that their children may be raised by the wrong parents in the wrong home. That's why last month, when President Obama announced a ban on federal funding for sex-reassignment surgeries (which can cost as much as \$100,000), it was a welcome step. It's not as though some sort of surgery can turn a man into a woman and vice versa. (That would be like "prying open a can of sardines and eating them," said Dr. John Langdon, a New York City family physician who does not perform sex reassignment surgery.) The surgery, which may or may not "cure" a transgender person's "disorder," merely tamps down medical hormones and, in theory, helps the patient achieve a more comfortable gender identity. Of course, the real crisis in transgender health (beyond the afflictions of being born with a penis) is that half of transgender Americans say they have at some point been bullied at school and 4 percent have attempted suicide. Which is why, a year ago, when the Obama administration announced a plan to allow transgender students to use the bathroom that matches their gender identity, it was met with widespread cheers. One of the major advances in transgender care has been hormone therapy, which successfully "masculinizes" or feminizes a person. In recent years, this has become relatively inexpensive, with the drugs (still illegal in about two-thirds of states) produced in Mexico and Asia. But it's what comes after the transition that is so stressful. It's a medical fact that sexual reassignment surgery is more effective for men than for women, because it reverses the effects of the male hormone testosterone. So for a trans woman to have the surgery is a step backward, something a boyfriend or husband would do to his wife or girlfriend. It's confusing for a child who sees one parent dressed in a skirt and the other in boy's clothes. As
