The Elden Ring Download With Full Crack was a fact back in ancient times. However, in this world there still lies a 'Lands Between'. There lies the 'Eye of the Sea', a land located in the mountains of the west of the Lands Between. The land is surrounded by a massive lake that meets the water of the Sea. The most powerful village is 'Rise'. A fierce battle is raging between Rise and Ranse, the northern area of the 'Eye of the Sea'. The game of battles spread all over the Lands Between because this game symbolizes an argument between the battle of three powers of the Lands Between: the land of 'Rise', the deep sea of 'Ranse', and the lake of 'Nepri' (the 'Eye of the Sea'). The Elden Ring is heading towards the current world of the Lands Between. In this place, he awakens the role of a special being born from the 'Eye of the Sea'. The boy born with a mysterious power is starting a journey towards the battles of power in the Lands Between!" (from Elden Ring Game)

For instance, with my computer and the settings you mentioned, I can play the game only with 30FPS limit. Hey thanks for the new update!
