## **Fifa 22 Features Key:**

- **New Player Classes:** Level up new skills with all-new Player Classes. A combination of speed, mobility, and shooting accuracy, such as Range, Ball Control, and Sweeper, dictate each player's usefulness on the pitch. Unlock a fan-favorite with one of the 20 teams of authentic international World XI players or customise your team with the all-new Ultimate Team Mode.
- **Improved New Player Creation:** New, more responsive, and deep-rooted Next Gen Player Creator. Create the best possible player by defining the key traits of your player, such as playing style, equipment, and industry. The New Player Creator will anticipate the positions you need.
- **Improved Create-A-Club:** Players and staff are now in charge of creating a grassroots club, from kits to stadium design. Every club has a full-time academy representative. You can even import the club you want to start from an existing club in FIFA or Ultimate Team.
- **Significant rule changes to reflect the slower gameplay.** Players will no longer handle the ball whilst on the ground, preventing opposing teams from intercepting through the air. The offsides rule now has limitations on the distance the ball is kicked. Players can no longer dive in the box, altering the law that prevents players from receiving a second yellow card for diving.
- **Dynamic camera angles.** Film the match from a variety of new camera angles.
- **Story Moments:** Get a better glimpse into clubs and people's lives with new unlockable tales. Players along with key figures in the game add stories of their own. Planning the next adventure, a child's first steps, finding a new best mate, or being told that your new contract will be for just one season - players and club staff can make this season bigger and better than ever before.
