KA Spectra Crack Activation Code With Keygen (April-2022)

b7e8fdf5c8

KA Spectra Crack + Product Key (Latest)

It is hard to find a synthesizer that is more versatile and flexible than Spectra. It was designed from the ground up to provide you with as many different types of instruments as possible. All sounds in Spectra are synthesized with active additive synthesis. There are no static patch with fixed chords and fixed presets. All sounds of Spectra are designed to be easily re-synthesized by rotating the sound or the oscillators. Spectra was designed to be easy to use, but provides you with a wealth of creative options. It features a multistage additive engine with up to 8 detune-able oscillators per Voice. There are up to 100 harmonies available on a timeline for re-synthesis and harmony morphing. A powerful audio analyzer is available to convert wave files into harmonies. Spectra has an incredible character with its 808 inspired analog modeled filters. The subtractive part includes 12 analog modeled filters with resonance, two of those to self-oscillation. Two LFO's are available for tremolo, vibrato and filter modulations. Five flexible multipoint envelopes with looping and time-stretch capabilities are available to control amplitude, filter cut-off, pitch and modulation level for each of the two LFO's. A 2 bank preset system is available for easy program handling. There is no latency, which makes Spectra the ideal instrument for real time performance in the studio or on stage. Here are some key features of "KA Spectra": · Multistage additive and subtractive synthesis · 250 partials additive engine · 8 detune-able oscillators per voice · Harmony morphing with looping and time-stretch · Audio analyzer · 12 analog modeled filters · Polyphonic portamento · 2 LFO's · 5 multipoint envelopes · Waveform presets · Midi Modulation · Midi Learn · 1100+ Preset Programs (constantly growing) · Parameter Automation · 256 Voices · Chorus / Flanger, Delay, Phaser and Reverb effects · Low CPU usage · Zero Latency This Software is provided "as is" and without any expressed or implied warranty. KA-Spectra is distributed on an "as is" basis, without warranty of any kind, whether express or implied, including, but not limited to, the implied warranties of merchantability and fitness for any particular purpose. All warranties are disclaimed and

What's New in the KA Spectra?

Spectra is designed to be a synthesizer plug-in that combines multistage additive synthesis with subtractive synthesis in an easy to operate and intuitive product. It provides you with a wealth of timbral possibilities, ranging from classic synthesizer sounds to re-synthesized instrument sounds and sound morphing. It features a 250 partial additive engine with up to 8 detune-

able oscillators per Voice. Up to 100 harmonies can be made on a timeline for re-synthesis and harmony morphing. An audio analyzer is available to convert wave files into harmonies. The subtractive part includes 12 analog modeled filters with resonance, two of those to self-oscillation. Two LFO's are available for tremolo, vibrato and filter modulations. Five flexible multipoint envelopes with looping and time-stretch capabilities are available to control amplitude, filter cut-off, pitch and modulation level for each of the two LFO's. The effect section features Chorus / Flanger, Delay, Phaser and Reverb. A two bank preset system is available for easy program handling; you can, for instance, browse through one bank and easily save your favorite sounds to the other bank. There is no latency, which makes this the ideal instrument for real time performance in the studio or on stage. Here are some key features of "KA Spectra": · Multistage additive and subtractive synthesis · 250 partials additive engine · 8 detune-able oscillators per voice · Harmony morphing with looping and time-stretch · Analog modeled filters · Polyphonic portamento · Audio Analyzer · 2 LFOs with 12 waveforms, sync and sample / hold · 5 multipoint envelopes with looping and time-stretch · Waveform presets · Full pedal implementation · Midi Modulation · Midi Learn · 1100+ Preset Programs (constantly growing) · Parameter Automation · 256 Voices · Chorus / Flanger, Delay, Phaser and Reverb effects · Sample accurate processing · 2 banks preset system for easy program handling · MIDI range filtering · Transpose · Low CPU usage · Zero Latency Owner's Manual: Installation

System Requirements For KA Spectra:

Minimum: OS: Windows 7 (64-bit) Windows 7 (64-bit) Processor: Dual Core CPU Dual Core CPU Memory: 2 GB RAM 2 GB RAM Graphics: NVIDIA GeForce GTX 650 NVIDIA GeForce GTX 650 DirectX: Version 11 Version 11 Network: Broadband Internet connection Broadband Internet connection Sound Card: DirectX 11-compatible sound card Dedicated Server: Any hosting service Recommended: Windows 7 (64-bit) Processor
