### What's new in PANORAMICAL:

**I have played a few Touhou games. After seeing SE gets Touhou 11 I decided that I would buy it and Touhou Resonance of Fate on the PS2.SEGamedevs recommended games, and I am totally with them. SE gets Touhou 11 is a collection of music and cult films from the game Touhou Project. The lady who created it, Kyosuke Yamaoka, is no stranger to the Japanese gaming industry (he worked for Square, Enix and the Yokoshima Team on many games) and he teamed up with UI (uro waga te weihon wo kumoete) who has done beautiful and amazing illustrations before and is currently doing great stuff for Poplar. There was also the announcement of Touhou Resonance of Fate, a sequel to Touhou 11 that builds on SE gets Touhou 11. It is being produced by the original developers, Kouji Okada and Tatsuyuki Kodaka, and it is an isometric RPG with a complete story of blood curdling amounts of battles. Did you notice the nice RSE in the SEGamedevs announcement? It stands for Ryouma Senkou no Sennou Densetsu, which is Touhou 11 & Touhou Resonance of Fate in Kyuuou no Oku Sugiru Kanzen Tobira (DOUBLE DAY & NIGHT BLOOMING STORM CALM) the opening theme music from the game Touhou Ichi Yukou. I have both games. Each game has unique artworks for it. I am a big fan of SE gets Touhou 11 mainly because it has Kyosuke Yamaoka's art.This is what it looks like: But for Touhou Resonance of Fate, this is what it looks like: (the light brown is the one we have when he is controlling another Valkyrie) I think it is a different artwork. So I came up with a few ideas about this artwork: First the only thing I noticed is that the artwork is of Vortex Witches. In Touhou Resonance of Fate we have the valkyrie Gensou no Kuni being controlled.Gensou no Kuni is short for the title of one of the first Touhou maps, Gensou no Kuni. So the vortex witches are in a map that is centered around a gensou no kuni. I think he changed it to Vortex Witches because they are**

We hope to capture the atmosphere and make a Survival Horror game that is unique. Story: It's time to play in dark creepy areas, where only a flashlight tied to your hip and 2 of your weapons will only be able to see the light of day, in most areas. This game will feature a single playable character named MARK FORAH. The story will play out in episodic chunks of games, each focused on a particular environments. At the end of each chapter, the next area will be unlocked. The Obelisk, will feature heavily throughout the game. You are now a recently released prisoner named MARK FORAH, who woke up locked in a cell in the middle of the night. The moment you wake up in the cell, you are introduced to a very sinister, eerie sound, that slowly gets louder and more menacing. Soon after the sound, you hear more foot steps and then the lighting dims, and the cell lock is quickly opened. You know something is up and down you see a small female figure in a white dress slowly walking towards you. The figure doesn't seem to notice you or the cell you are in, and as soon as she reaches you, you are presented with your request. Mark Forah, a former scientist, whose daughter was taken hostage, is demanding to be released from his cell. However it turns out the situation is more sinister than that. Your daughter was used as a bargaining chip, and the order to release you is part of the next test. There's no guarantee that they will follow through with the order, as it is a complete ploy on the part of the company to use him as a tool. You must escape from the facility with the help of your daughter and prepare for your next test.
