[tokurin]IRS Notices: Assessment and collection of tax on interest payments The Federal, internal taxes due as of 2012, are one that I must point out is in the form of an assessment of tax due. However, a portion of the taxes due and due back are in the form of a collection of tax. Beyond the fact that no persons purchase a valid I.D. from the state of Nevada, individuals purchasing Property and Irrevocable Trusts from property tax ermetors of the state often will not have had their income reported correctly. The IRS will not base it's tax assessment on income that is not reported correctly. The IRS (Internal Revenue Service) has a policy that they will not and will not investigate individuals who are in compliance with the Internal Revenue Code. The government (fed goverment) holds the authority to set tax rates in town, state, or federal for income, property, and corporate income. Also, the Local government has the authority to adopt laws that set the rate of tax which the household is required to pay to the government. I guess the real question is what is good for the government to regulate? 1. The IRS allows a specific income level over a tax period to allow their employees to decide if an individual is owing tax or not. The IRS doesn't investigate individual with income over the tax threshold because it is considered under the tax law as if you were a resident, the IRS can not tax you. Of course if the IRS determines after investigation that you have not filed returns correctly or fraudulently, they still have the power to determine if you need to pay what they determine you owe. 2. With regard to taxation, with respect to property, it used to be the case that the government levied a tax on the value of the property. This was a property value tax or a wealth tax. However, in the 1990's the taxes enacted were in

the form of a land value tax. Currently the tax is structured in a way that ensures property owners retain a property tax advantage. There is a real gain in doing business in a State that is inequitable and unjust.
