What's new:

January 22 - February 6 CIRCLE OF THE ZODIAC
Understanding the Zodiac Circle Aries
Beginners at Astrology-Class You have come back to school. You are now going to learn more than you have ever learned before. You are about to start a new school. Start it well. Remember who put the school here. You are the student. This school is for you. No teacher will get credit for your marks. You are the final judge. Go carefully. Do not make an enemy or get mad. You can damage the school. Keep a cool head. It is common for a beginner to become too wrapped up in working on geometry, English grammar, or algebra. Solve the puzzles given in these areas for a few minutes, and then for a few more minutes to keep them in your mind. After that, apply what you have learned. Deal gently with people. You are aggressive, but you cannot think of others except as obstacles to be taken care of.
Taurus Quick to Find Money You have money stored in an excellent pocket. You like to hoard

money because money puts life in perspective. You feel good being generous with money. You also like to solve puzzles. Take time to be friendly with members of your family. You will find them cold. You like to give people warm welcomes. You do not always have time to take part in their social life. You often know more about them than they about themselves. Those who do not know you well keep this in mind. Be careful not to overdo yourself. You have the advantage of knowing your own strength. You have lots of energy, but you waste a lot also. Be careful not to squander what you have. While you are not afraid of work, you do not like it. You would choose schoolwork if you could avoid it. Perhaps your mind is not ready for work. You will like company much more than you will like solitude. Gemini Ready to Find Lost Things Search for lost items. You search unconsciously and feel that it helps you to get on with life. Your head is full of gadgets. They help you balance your emotions. You keep information about gadgets in the back of your mind. Do not tell anyone which items you have. You find it possible to deliver just about anything you want to someone — often at an unexpected time and
