## **What's new:**

**/Video Contest! Wow, what a response we have with our recent addition, Throne of the Dead! We asked a community of our Facebook fans to design their own vampire game art! We played around with them for a few months and then it came time to narrow the hat down to two which each got a prize! Brelen had the original piece designed by codeplex user starfire. She ends with a great comment... "I absolutely love how this came out! Cool!! I felt very inspired by it, seeing how it integrated elements from both games! The depth of the paper, the detail of my monsters, the fake blood and the way the characters were drawn, especially the cool background! Well, all the details were awesome and I hope you like it!" But Brelen was just one of seven chosen! Each of them were then given a hard copy of the game with a personalized card and prize if you liked the piece! Here are the seven winning artists who brought us a whole different world! Quinten, who won a Steam copy of Throne of the Dead Wesford, who won a Steam copy of Throne of the Dead, a 2009 Games For Windows VR reality show (from 2008), and Life in Hell by Markus Persson. All this due to Wesford, a narrator of Love in Space, SpaceStat and other musical games on the GFWV platform. Nickia, who won a 2013 Xbox Originals launch of Big Buck Hunter: Behemoth Edition. Thanks Nickia for being part of our 2012 contest and thanks you for designing such a nice piece of art for our Throne! Machteld, who won a Steam copy of Throne of the Dead. Machteld has been a contestant on more than half a dozen Reality shows. His gear was made for Budapest Blend which is the most recent video music game made in Hungarian for Microsoft. Brelen, who won a Valve gift card for Starfire's Throne of the Dead piece Tuan, who won a Steam copy of Throne of the Dead in our other contest last year. Tuan is also a member of the French team for GFWV, together with GDC which is a studio that has produced a few original titles for GFWV and Microsoft platforms.
