((EXCLUSIVE))**

May 9, 2018 - This hotfix/wrapper redirects legacy DirectDraw calls to OpenGL 1.1/3.0. Now people can play American Conquest: Divided Nation on win10! Thanks to my friend @NikiTsoy for posting it in his journal! And now I can show you how to fix it... as well as how to integrate games that don't support DirectDraw This is what we are doing in this step, we are using D3D11PixmapBitsPerPixel to resize the image, now let's create the texture. We'll use the D3D11DrawTexture function to resize the texture, and we can use whatever format you want to use.
