2, 2564. which therefore promises sparkling brilliance and maximum brilliance. To be successful, the gem must be cut in . in accordance with geometric rules. There are a huge number of rules that are used when cutting gems and which make it possible to create a faceted stone. These rules were invented many centuries ago and passed down from master to master.

March 4, 2564 CE â€” The impetus for my heated comment was the recent incident related to the shameful refusal of the Veritas forum to invite Neil Shanvi to the event. This was quite surprising given that Veritas has a reputation for being one of the most active and most respected forums for the entire community. I don't know why they did it and I would like to know what they think about it. But they did, and I'll be very surprised if they don't change their mind. I am under the impression that events such as this tend to generate discussion and I think it would be very helpful for Neil Shenvi to answer these questions. dd2bc28256
