I just had an idea, a player would like to run a game like this without being on the Internet, and to make this possible in the next Test Drive Unlimited 2, but if there are any other game like this then we can switch. I think the sequel to this game was much better than the first one, I still think the graphics are awesome, and even though it is probably that it is built on the same game engine, the textures now are much better. You can also find special events on Facebook and Twitter, and you can log in and register your location and that's it - you get rewarded. All of this is really, really cool, and I know I want to see where they take me next! Ok...
